

**DIGITALISE**

**CONNECT**

**GROW**

One-stop platform  
for all your trade  
and logistics needs

## About the NTP

The Networked Trade Platform (NTP) is a one-stop trade and logistics ecosystem which supports digitalisation efforts and connects players across the trade value chain – in Singapore and abroad. It aims to provide the foundation for Singapore to be a leading trade, supply chain and trade financing hub.

To find out more, visit [www.ntp.gov.sg](http://www.ntp.gov.sg).

### DIGITALISE

Enhance your trade efficiency by going digital.

Go beyond manual paperwork and open the gate to true digitalisation. Let the NTP help your business improve trade efficiency by enabling the transformation process: create and reuse data on a single platform.

- Store and manage your documents and data easily and securely on the NTP
- Save time on data re-entry and improve data accuracy by reusing and sharing your documents and data from source with business partners and for government applications through the NTP
- Collect digital data across your trade ecosystem for ease of analysis and planning

### CONNECT

Be connected to the wider trade ecosystem seamlessly.

With the NTP, all it takes is one connection for you to conduct your trade transactions with partners and providers seamlessly.

- Minimise the cost and effort to connect with your trade partners
- Connect and collaborate locally and overseas with new and existing partners
- Apply for trade-related e-services directly with Singapore Customs

### GROW

Expand your business capabilities with Value-Added Services.

Together with third-party providers, the NTP offers a marketplace of Value-Added Services (VAS) to support your evolving business needs. The range of services include those that allow you to arrange shipments easily, improve cash flow, and better manage trade compliance.

The NTP also aims to foster innovation in the trade ecosystem. VAS providers and independent developers can tap on the platform's innovative infrastructure and developer toolkits – such as data Application Programming Interfaces (APIs) and a sandbox – to build and enhance services.

# A Platform for All

## Small and Medium-Sized Enterprises (SME):

The NTP is a one-stop platform that provides me with the tools and services for my business to digitalise and grow

## Multi-National Corporations (MNC):

The NTP is a single integrated hub that connects me to the wider trade ecosystem.

## Logistics Service Providers (LSP):

The NTP is an integrated platform that helps me help my customers move their shipments easier, faster, and with greater accuracy with data reuse.

## Trade Financiers & Insurers:

The NTP is a digital gateway that enables me to serve my customers in a secure manner, while providing me with the opportunity to widen my customer reach.

## VAS Providers & Developers:

The NTP is a platform that not only allows me to develop and enhance my services, but also market them to traders.

## For the SME

### A one-stop platform that avails you the tools and services to digitalise and grow

**Enhance trade efficiency by going digital.** The NTP data repository is more than a secure storage space to store and reuse documents and data. It also allows you to share them digitally with your trusted trade partners.

**Boost business productivity as part of an integrated hub.** The NTP connects you to the wider trade ecosystem, allowing you to digitally transact with the Government, trade service providers, and other players in the industry.

**Improve business performance by tapping on Value-Added Services.** Easily access digital solutions that can streamline and help your business grow. You will be able to:

- Generate trade documents easily with cloud Enterprise Resource Planning (ERP) solutions
- Reach out to multiple banks using a single trade finance application portal
- Optimise cash flow with invoice financing services
- Import or export goods easily through a service that helps you prepare and apply for international permits

Enhance trade efficiency and boost productivity

Explore ERP solutions, permit preparation services and other Value-Added Services

## For the MNC

### An integrated hub connecting you to the wider trade ecosystem

**Boost business productivity by connecting seamlessly with the wider trade ecosystem.** Minimise cost and reduce effort when you join the NTP. By integrating your trade networks on the NTP, you can exchange trade documents and data with all your trade partners using just a single platform.

**Leverage Value-Added Services to enhance business performance and fulfill trade needs.** Value-Added Services available on the

NTP provide your business with fresh opportunities to lower costs and increase efficiency.

On the NTP, you will be able to:

- Save time and hassle when applying for Certificate of Origins (COs) by submitting supporting documents through the NTP
- Tap into B2B payment solutions that leverage on local and international payment networks

Be part of an integrated trade ecosystem

Do more with our B2B payment solutions and other available Value-Added Services

## For the LSP

### An integrated platform that empowers you to better help your customers

**Enhance trade efficiency with data storage and reuse.** Save time and money while enjoying the convenience of a single digital storage where you can share and receive documents from your customers and trade partners.

**Achieve productivity gains by consolidating both your business and government-related transactions on a single platform.** Not only can you connect with all your trade partners easily, you will also be able to perform trade-related transactions, such

as permit declarations, with the government directly.

**Explore how you can enhance your trade capabilities with Value-Added Services.** With the multitude of service offerings available on the NTP, you can:

- Tap on cloud-based freight management systems that support logistics management to streamline your operations
- Optimise your forwarding capacity or gain access to competitive shipment rates with a container marketplace and booking service

Increase trade efficiency through data reuse

Connect to both government and private services on the same platform

## For the Trade Financier & Insurer

### A more convenient, secure digital gateway for you to serve your customers

**Save time and costs by going digital.** You can process your application faster by reducing data entry inaccuracies. You can also streamline application processing by allowing your customers to seamlessly use their digital data for trade financing and insurance applications.

**Enhance business productivity by connecting to the wider trade network.** With the NTP, you can exchange data with your customers effortlessly by

integrating your platform with the NTP. Let the NTP pave the way for potential new customers while adding value to your existing customers.

**For trade financiers, you can manage your operational risks by tapping on the trade finance compliance service.** This service allows you to conduct price checks on underlying goods in trade transactions to ensure that goods values are in line with prevailing market prices.

Increase processing efficiency through data reuse

## For the VAS Provider & Developer

## A platform that lets you develop and market your services at the same time

- 
**Enhance trade efficiency by enabling faster service turnaround.** Perform a one-time integration to the NTP and you can share and retrieve trade-related documents from your customers directly, allowing you to consume the data to smoothly enable your service.
  
- 
**Gain access to potential business opportunities by being part of an integrated hub.** You can reach out to existing and potential customers

and business partners with the NTP, and market your services to the wider trade community through the VAS listing.

- 
**Stay competitive with developer toolkits.** You can enhance your Value-Added Services or create new ones with developer services such as data APIs and a sandbox, enhancing your customers' experience and generating potential revenue streams for you and your business.
